Inaugural
Venous Thromboembolism Symposium

Advances in the Treatment of VTE

Saturday, December 13, 2014 • 7:15 a.m.-12 noon
Baptist Hospital of Miami
Auditorium, 8900 North Kendall Drive, Miami, Florida

Symposium Directors • Ian del Conde Pozzi, M.D., Barry T. Katzen, M.D., Constantino S. Peña, M.D.

Symposium Overview • Pulmonary embolism is the third most common cardiovascular disease after myocardial infarction and stroke. The death rate of pulmonary embolism exceeds that of myocardial infarction, because myocardial infarction is much easier to detect and treat. Please join us in this half-day symposium for an overview of contemporary therapies for venous thromboembolism, emphasizing modern interventional therapies for more-complex cases.

For more information, go to MiamiVTE.BaptistHealth.net or contact the Baptist Health CME Department at 786-596-2398.
Inaugural Venous Thromboembolism Symposium

Advances in the Treatment of VTE

Saturday, December 13, 2014 • 7:15 a.m.-12 noon
